AN -INQUIRY MADE BY THE AMBITION LED HIM TO ACTS OF NO ONE NOW TO DECK HOUSE UNITED STATES.

London, July 28.-The tension in the Russo-British relations has been re-laxed and no rupture is now probable. Count Benckendorff, the Russian am-bassador to Great Britain, informed Lord Lansdowne this morning that if Russia had committed a wrong she was ready and willing to make full repara-tion, but before any action could be taken in the Knight Commander case, the Russian government must have the opportunity of receiving the report of the commander of the Vladivostok squadron.

Lord Lansdowne was not disposed to iduly press the matter, and promised wait a reasonable time.

It developed today that the United States is depending on Great Britain to obtain compensation for the loss of the Kuight Commander's cargo. It is the custom for ship owners to be responsible for cargoes and, therefore, the American claim is to be made to the owners of the Kuight Commander, who, of course, are British, and who in turn will make claim to the British government.

MAY BE STRENGTHENED.

Moderate Representations Made by UNCLE SAM.

Washington, July 28.—The state department has addressed itself to the Russian government, through Spencer Eddy, the American charge at St. Petersburg, on the subject of the seizure of the cargo, of the Arabia by the Vladivostok squadron. The Hamburg-American company, the owners of the ship, undoubtedly will appeal to the German government to secure the release of its ship and compensation for the delay in her cruise and other items of loss. It is deemed highly desirable to take conservative action, and above all to avoid increasing the irritation aroused in shipping circles over the recent selzures and sinking of vessels. Therefore, Mr. Eddy has been it is un. Eddy, the American charge at St. Petersburg, on the subject of the seizure of the cargo, of the Arabia by the Vladivostok squadron. Steamer Arabia Has Not Yet Arrived at Vladiostok.

St. Petersburg, July 28.—The United States is preparing to take a strong position for the protection of neutral ships carrying American cargoes. This is indicated by the fact that the United States yesterday made an official inquiry of Russia regarding the British steamer Ardova, setzed by the volunteer fleet vessel Smolensk in the Red sea, which had American government stores on board. The Ardova had altready been refeased when the inquiry was made. Today the foreign office received a communication from the United States asking whether the Arabia, a German ship chartered by an American company, had been released, and adding that according to information from the total company, had been released. "At that time Mr. Plehve had not arrived at the position of full minister of interior, but was the first assistant minister in that capacity took up various American matters, especially the dealings of the Russian government with some of the great American insurance companies. The Russian government had made the companies a great deal of trouble and I was instructed from Washington to discuss the matter. General Bachellor, now judge of the international court in Egypt, very ably represented the companies."

'I think both General Bachellor and myself found Mr. Plehve very agreeable and, apparently, as far as his government allowed him, reasonable. I also met him socially at various times and found him agreeable and interesting.
